When All Saints Catholic School was constructed 50+ years ago, its design allowed for easy future expansion to occur by converting the carport into finished rooms. Finally, **THE FUTURE IS NOW**; we are poised with a million-dollar matching gift to revitalize All Saints' physical space by adding 6,800 square feet of learning and administrative space and configuring current areas to their best use.

In recent years, our pre-K-8 parochial school has witnessed growing enrollment, increased philanthropic support, and continued 100% high school completion by our graduates—*it is because of leaders like you that we are ready for this future.*

Expanded Academic and Administrative Spaces

- Creating three new classrooms, making space to join the lower grades on the lower level and middle school on the upper level.
- Ensuring space to continue to provide a competitive level of high school credit classes.
- Adding a classroom for a contained fifth grade.
- Dedicating permanent space for Music and Art classes.
- Ensuring adequate space for teacher workspaces, tutoring, counseling and support offices.

Enhanced Security and Safety

- New clear entrance with secure vestibule
- Direct visual control for all front site areas

Increased ADA Access

- Addition of an elevator for easy access to the second floor.
- ADA toilet accessibility

Estimated cost: \$2.3 million

All Saints looks forward to soon putting every square foot to its best use in service of the educational and spiritual needs of our students. This project will help ensure that the “Gem of the Northside” will live fully in its mission as a Catholic school of high moral expectations and academic rigor.

We invite you to be the first to make a generous pledge toward the carport build-out. Your leadership is an example to all of us.
