

Dear Junior Kindergarten Parents,

Welcome to All Saints Catholic School! I am very excited that your child will be in my class. Here are calendars for the months of June, July, and August to help prepare your child to feel comfortable with the class expectations this year.

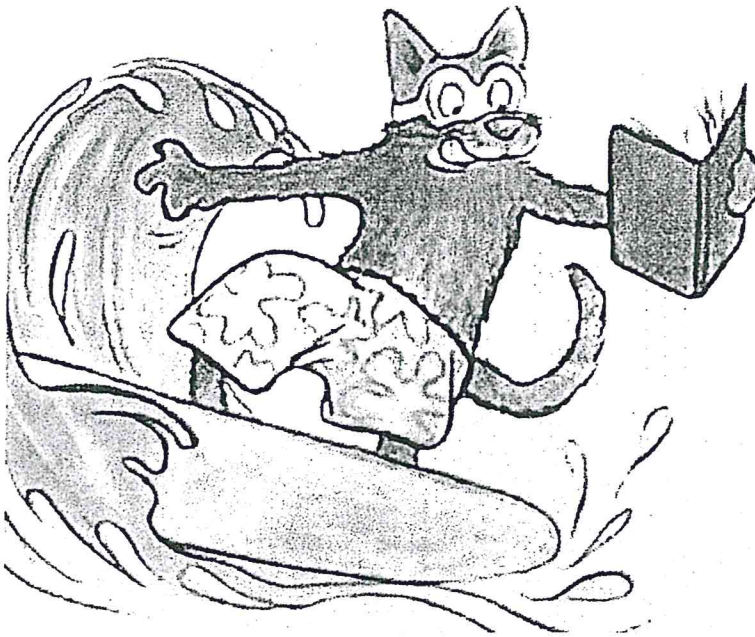

Along with the tasks listed on these calendars, I ask you to spend 15 minutes every day reading to your child for the months of June and July. Beginning in the month of August, I ask you to spend 20 minutes reading with your child.

Lovingly reading to your child will not only strengthen the bond you have with your child, but it will also increase attention span and expand vocabulary. The ability to listen is probably one of the largest factors that will determine the ability of your child to be successful, spiritually, intellectually, socially, emotionally, and even physically! Research has proven that the amount of books children have access to determines the success of the children.

Please lightly color or initial the task in each square on the calendar that your child completes. If you spent the recommended amount of time reading with your child, please also write the title of the book in at least a total of twenty squares. Thank you.

Happy Summer Reading and Learning!

Sincerely,
Catherine Hoang
