

The Future is NOW

When All Saints was built 54 years ago, the school design included an open first-story parking wing with classrooms above. The plan was, in time, to build out the carport to provide additional space for growth, but funding constraints continually delayed implementing the plan. All Saints had reached a tipping point--we were out of space! The additional 6,800 square feet of space was needed to accommodate current and future growth, as well as provide the facilities needed to prepare our students for profound success in high school, college and beyond.

Before

After

Build-out of the parking area provides expanded academic and administrative space and helps configure current areas of the school for best use. It creates three new classrooms, making space to join the lower grades on the lower level and middle school on the upper level. It opens up a classroom upstairs so that fifth-grade can be self-contained and all middle school subjects have a classroom. It provides dedicated permanent space for music and art classes, and ensures adequate space for teacher workspaces, tutoring, counseling, and support offices.

The new construction enhances school security and safety; it includes a new entrance with 180-degree direct visual control for all front site areas and a secure entry vestibule. It adds an elevator for easy access to the second floor as well as ADA compliant bathrooms. With this new space,

New classrooms

Dedication and ribbon-cutting - November 1, 2021

All Saints will be able to better provide a more competitive level of high school credit classes. The ability to do this is critical for our students to be accepted into the best Richmond area specialty and private schools where they can obtain the best college preparation. We want to equip our students to do and be their very best and continue the All Saints tradition of 100% graduation rate from high school with the high majority of students going on to college.

JUNE
2021

Build-out is complete; Ken Soistman retires after 51 years of service to Catholic education.

AUGUST 25
2020

All Saints re-opens and construction begins on the carport build-out.

NOVEMBER 1
2019

All Saints Day Ground-breaking ceremony for carport build-out, 80% of \$2.3M goal is met.

1996

Ken Soistman named principal.

1967

St Paul's Catholic School built on Noble Ave – 2nd floor classrooms built above an open carport to one day be built in.

NOVEMBER 1
2021

All Saints Day Dedication and Ribbon-Cutting.

JANUARY
2021

The fundraising goal is met!

MARCH 16
2020

All Saints closes due to COVID-19; finishes the school year remotely.

AUGUST 27
2019

All Saints receives \$1 million dollar gift from Weinstein Properties for the carport build-out, The Future is Now capital campaign is launched.

1982

St. Paul's and St. Elizabeth's Catholic Schools merged to become All Saints Catholic School.

Thank you for your hard work and perseverance!

Students and staff sign I-beam during construction.

All Saints Catholic School is located on Richmond's diverse Northside.

It is a fully accredited Jr-K through 8th grade regional school that provides a superior academic and values-based educational experience in a safe and supportive environment.

As a regional school with a population drawn from a wide area of the metropolitan Richmond area, All Saints values the accomplishments of its unique student population. A majority of our students come from low-income homes and 65% of the students qualify for tuition assistance.

While All Saints welcomes all religions, races and creeds, the present school population is 40% Catholic, 60% non-Catholic and 65% African American, 20% Latino, and 15% Caucasian with a current enrollment of 195. The school's greatest achievement continues to be that since 2006, 100% of its students have graduated from high school.

Our alumni have demonstrated solid success in high schools with four valedictorians and a salutatorian for the City of Richmond, as well as a Bill Gates Scholarship recipient.

In the last 10 years, 90%+ of these graduates went on to higher education.

Some of these college-bound graduates are the first in their families to attend college.
